

The Philips logo is displayed in a white rounded rectangle on a blue background. The background of the entire top section features several Philips Alpha smart door locks in various orientations, showing their sleek, modern design and the keypad area.

EasyKey

Alpha

Push-pull
Smart Door Lock

Wonderful life starts from a

Full automatic: more safety, more freedom

With the simplicity brought by speedy unlock and auto lock and the safety ensured by dual verification and C-grade lock cylinder, Alpha is a solid choice for a smart life. The ergonomic design even makes it a pleasure to push the door open.

Caring design ensures easy experience

- Push-pull use for exceptional door opening experience
- Smooth and durable surface with IML finishing
- 3 exquisite color schemes with rich texture: Black/silver/golden

Multiple protection in one for overall home safety

- Dual verification & Bluetooth unlocking boost home entry security
- One-key anti-theft mode for instant inside unlock alarm
- Fake PIN code function prevents password disclosure
- Hidden C-grade lock cylinder for doubled security
- One-touch safe handle and one-touch indoor deadlock

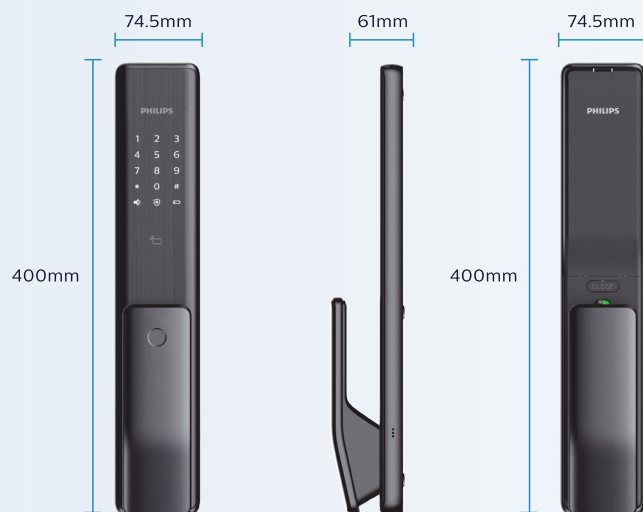

More convenience in your life

- Patented full auto mortise: unlock and open at one go
- Automatic locking lets you leave home without double check
- One-time password, convenient for visitors like friends and cleaners
- Voice guide makes operation and settings much easier

Smart life "locked" with excellence

- Multiple unlock solutions: Say goodbye to the key-only era
- Wireless network extension prepared for future smart life
- Switch between automatic and manual modes as needed
- Supports emergency power supply and low battery alarm
